

3-STATION HYDRAULIC IRONWORKER

UNI-HYDRO

For over 45 years Uni-Hydro has built the finest line of ironworkers, plate shears and punch tooling in the fabrication industry. All Uni-Hydro machines feature our patented linkage system and are engineered for exceptional performance and longevity. The result is each ironworker does exactly what an ironworker is supposed to do; cut, bend, notch and punch steel with the least amount of deformation possible.

Some people call us the best kept secret in the Machine Tool Industry. We hope you enjoy exploring our machines and decide to put a legendary Uni-Hydro on your shop floor soon!

* Shown with optional Universal Sever Housing

The Uni-Hydro **Model 30-8** ironworker is the most powerful 30 ton on the market, with 70% more load bearing pin surface than a scissors manufacturer's 150 ton. This model is perfect for small shops, providing a little extra tonnage for your projects than the typical 25 ton machines at this price range.

FEATURES:

- 4-1/2" Open throat punch with 30 ton capacity
- Optional Angle Shear Capacity is 3" x 3" x 1/4"
- 8" Bar shear with 4 sided bar blades
- Power cavity accommodates various tooling
- Fixed or adjustable bar shear hold-down
- Forklift accommodations
- Magnetic starter for safety and reliability
- Sits flush with wall freeing up floor space
- Rated for 65,000 PSI Tensile Mild Steel

Why Buy A Used Ironworker At This Price?

Square Notcher	1-3/4" x 2" x 1/4" - (Punch Station Only)				
Pipe Notcher (Sch 40 or 80)	1/2", 3/4", 1", 1-1/4", 1-1/2", 1-3/4", 2"				
Brake	6" x 1/4"				
Strokes Per Min	Light Material - 9 at Max Capacity - 9				
Hydraulics	1,000 psi				
Oil Capacity	15 quarts				
Motor	Standard - 3 HP / 3ph Optional - 3 HP / 1ph				
Dimensions (L x W x H)	27" x 24" x 50"				
Weight	880 lbs				
TOOLING AND ACCESSORIES - PAGE 4 & 5					

SPECIFICATIONS

Model	30-8						
Tonnage	30						
Throat Depth	4-1/2"						
Punch	3/4" hole in 1/2" mild steel 1-1/4" hole in 5/16" mild steel						
Bar Shear	1/4" x 8", 1/2" x 6"						
Angle Shear 90°	Sever Cut - 3" x 3" x 1/4"						
Miter Angle 45°	Bar Shear - 2" x 2" standard						
Channel Shear	1" x 2" standard						
Rod Shear	Round (Max) - 5/8" Square (Max) - 5/8"						
V Coper Notcher 90°	For 3" x 3" x 1/4" Angle Iron						

UNI-HYDRO IRONWORKER MODEL 30-8 FEATURES

Outfit your Ironworker for maximum productivity with these exceptional tooling choices, optimized for the Power Cavity, Punch and Notching Stations.

WHY INVEST IN A UNI-HYDRO?

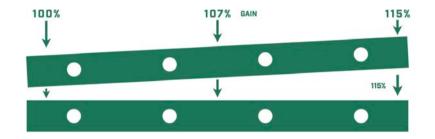

WE HAVE A LONG HISTORY BUILDING IRONWORKERS IN AMERICA

The Dvorak family has been producing hydraulic ironworkers since 1949, with the Uni-Hydro brand in business for over 45 years. Jim Dvorak holds 30 international and 6 stateside patents on ironworkers, with no other ironworker manufacturer or individual coming close to as many patents held by Jim.

PATENTED POWER

The patented mechanical linkage system designed by Jim Dvorak moves the working center plate downward with a slight movement which breaks the molecules of steel in multiple directions in a slicing motion. This ensures the cleanest cuts available in the industry. The design methods found on a Uni-Hydro ironworker have incorporated the tooling stations to push in a non-attached or non-binding method. This ensures our punch stations and power cavity stations operate tooling in a vertical position.

UNI-HYDRO SHEARS GAIN POWER UP TO 115% THROUGH THE CUT!

6

ENGINEERED FOR A TIGHT FIT AND FINISH

Our rigorous manufacturing process ensures the primary plates are 100% accurate. Each machine has almost 70% more load bearing pin surface than a competitor's machine. This creates a more efficient working cycle throughout the machine's working process. Coupled with this is our world famous mechanical linkage system, that ensures each guillotine cut on our bar shear is as accurate as is possible.

EXCEPTIONAL PUNCHES AND TOOLING

Our tooling doesn't wear out like other machines. Our four-side bar shear blades come with an unconditional 3-Year warranty on the original edge. No other manufacturer offers this guarantee. Our punches and dies are purchased in pairs of the exact same size, not mismatched like the rest of the industry. Each punch and die is coated with oil with a next-level bluing process to prevent oxidation and reduce slag build up. With our punches and dies sitting on the shelf and not rusting you are ensured of getting the best punches & dies for your money.

DESIGNED WITH YOUR SAFETY IN MIND

Uni-Hydro machines are designed for safety of an operator, with shields and pedals in exactly the right place. Uni-Hydro Inc is an American based manufacturing company that **protects our company AND customers** with appropriate product Liability Insurance. Even UNI-HYDRO MANUFACTURED Punches, Dies and Tooling are covered by Uni-Hydro's Product Liability Certification when used in a Uni-Hydro ironworker. With Foreign importers depending on liability pass-through to off-shore manufacturers, who do trust more with your valuable purchase dollars?
